1 Waterproofing options

1. Paint

1.1 SANI-TRED

1.1.1 it needs 3 parts/products which are: Permaflex

1.1.2 Permaflex

1.1.2.1 Limitations:

- not to be used as a top coating
- never blend water with liquid Permaflex
- never reduce or thin Permaflex with alcohol or any solvent which may contain alcohol
- not to be used for high temperature above 250 F
- high specific gravity, thick, viscous liquid requires great pressure to airless spray @ 70° F. Best rolled and brush applied or sprayed by high volume air-assist type sprayer

1.1.3 SANI-TRED LRB

1.1.3.1

1.1.4 TAV

2.

3.
